Tuesday 24 September 2024

Dear Parent/Carer,

RE: National Manufacturing Day – Thursday 26th September 2024

As part of our drive to promote careers within the school, pupils we will be celebrating National Manufacturing Day on Thursday 26th September 2024.

On this day, children will come into school in normal school uniform. We will be celebrating with a variety of exciting challenges including; designing and making a working mechanism to lift a 100 gram weight vertically and designing a marble run to keep the marble moving for as long as possible. There will also be an activity pack and interactive games linked to careers within the industry and video calls from businesses explaining the processes within their establishment.

We look forward to a great day!

Yours sincerely,

Mr A Reichelt
Class teacher and Careers lead
